

Agama Wallet set up.

Download **Verus-Enhanced Agama** zip file (current version v0.6.1) suitable to your system (windows/mac) using this link <https://veruscoin.io/wallet.html>

- A. After downloading right click on zip file & click “Extract files”
- B. This will create a folder “Agama-Windowns-v0.6.1” or “Agama-Mac-v0.6.1”
- C. Open this folder & the sub folder
- D. Right click on the Agama application (4th item down) & send it to desktop.
- E. Go to the desktop & double click icon to open Agama wallet.

- F. Have a pen and paper to write down your new password/pin at 6 and 8 below, or
- G. Open a new note or a word document to save your new Agama/ilien wallet private details/Keys later.

When Agama wallet opens

1. Click on “activate coin”.
2. Type or select ILN from select option and press activate coin.
3. Scroll down & Click on “Create new wallet”.
4. Copy wallet seed. (24 Words)
5. Paste wallet seed on second line.
6. “Seed encrypt key (pin)” Create a password on this line (write down and keep private/safe)
7. Insert same password/pin on next line seed encrypt key to confirm.
8. Create a wallet name (e.g. JohnDoeWallet) **no spaces** and insert on custom pin wallet name line.
9. Click on register.
10. After you register **“sign in”** using your wallet name & password
11. You now have created a new Agama/Ilien wallet.
12. Click on the 3 bars on the top right to access the menu.
13. Click on settings.
14. Click on Export keys. (3 down)
15. Insert the password you created at no 6 above.
16. Click on Get seed and wif keys in orange box.
17. Scroll down and you will see your **24 word Seed** & **52 character** Wif keys .
18. Copy Seed & Wif keys and paste it on the Note/Word document you opened at G above.
19. Copy ILN public Address (**34 characters**) and paste it on the Note/Word document you opened at G above.
- 20. Save your Note/Word document with your Seed/wif and address keys. KEEP THESE PRIVATE AND SAFE as this is what gives access to your wallet.**
21. Click on the Menu (3 bars on top right) and select soft log out.
22. Log back in to your wallet.
23. Select wallet name. (one you created at 8 above.
24. Insert your password (one you created at 6 above).
25. Click on sign in.
26. You have now set up your Agama/ilien wallet and is ready to use.

Ps: *Wallet name & password works on the pc that was used to create the wallet
To access your wallet from a different PC use you wif key
